Direct Components, Inc is a broad-line independent stocking distributor of both active and passive electronic components. We provide board-level parts and hardware to commercial, industrial, and defense/aerospace clients. We have access to millions of components but we specialize in obsolete and hard to find integrated circuits, semiconductors, memory, microprocessors, transistors, resistors, and relays. We carry top manufacturers such as Analog Devices, Altera, Dallas/Maxim, Linear Tech, Intel, Samsung, Cypress, Fairchild Semiconductor, Hitachi, Infineon, Vishay, Motorola, On Semiconductor, Freescale, National Semiconductor, Xilinx and Texas Instruments.

Additional Information

Legal Name: Direct Components, Inc.
FEIN: 59-3520165
Resale#: 39-8012254296-7
D&B#: 036152911
NAIC: 423690, 423710
Cage Code: 1TPJ2
S-Corporation

Founded: 07/06/1998
SIC: 5065
Employee Count: 20 – 30
Facility Size: 3600 Sq. Ft.
80% commercial, 15% automotive, 5% other
County: Hillsborough
Congressional District: 14th
Self-Certified Small Business

Are purchase orders placed with approved vendors only?	Yes
Are ISO/AS9120 and customer “flow down” requirements communicated to vendor by PO or other means?	Yes
Do your approved vendors have a QMS in place when required by customer? *Must request at RFQ	Yes

Counterfeit Prevention – Counterfeit Parts Procedure

Does the organization plan, implement, and control processes for the prevention of counterfeit or suspect counterfeit part use and their inclusion in product(s) delivered to the customer?	Yes
Is there a counterfeit parts procedure in place?	Yes
Do you flow a Counterfeit Parts Prevention Clause to your vendor on the PO?	Yes
Does standard inspection include as applicable/or required: External Visual Inspection • Electrical Testing • Programming Testing • Radiological (X-Ray) Inspection • Delid/Decapsulation Internal Analysis (destructive).	Yes
Do you perform testing to AS6081, AS5553? NOT STANDARD *If requested we have the capability except for XRF testing. You would be responsible for adding additional qty required for destructive testing to PO.	*If Required

First Article Inspection - Procured Material

*As an Independent Distributor we do not perform First Article Inspection.	No
--	----

Receiving Inspection – Receiving Procedure

Are there written procedures for verification activities, including acceptance and rejection criteria?	Yes
Do receiving Inspection personnel verify required documentation (i.e. material certification, test reports, packing lists, invoices.) as required, is received with incoming shipments?	Yes
Are incoming materials processed in the priority sequence of the dates when the materials are required?	Yes
Do you maintain Test and Inspection records?	Yes
Does your company perform sampling inspection to a sampling plan and according to risks identified?	Yes
Can you test to standard IDEA-STD-1010 if requested on Purchase Order? *However, we do not have IDEA-ICE-3000 certified inspectors.	Yes*

Traceability, Handling, & Storage - Identification, Traceability, & Preservation of Product Procedure

Are age control/shelf life items properly identified and stored?	Yes
Do you have a FOD program in place?	Yes
Do you have procedures for handling, storage, packing, preservation, and delivery?	Yes
Is identification and traceability (Part number, Date Code, Lot number, serial number (when applicable)) maintained for all purchased material from receipt through delivery?	Yes
Is there sufficient traceability to recall defective product and trace the supplier if necessary?	Yes
Do you have an ESD Program? Are ESD sensitive parts handled using appropriate ESD safeguards (grounded work bench, special packaging, etc.)?	Yes
Do you control and monitor utilities & supplies to the extent they affect product conformity?	Yes
When acceptance media is used are there controls for that media?	Yes
Does the organization safeguard customer property and report to the customer if unsuitable for use?	Yes

Release of Product – Order Fulfillment WI

Are customer purchase orders being reviewed to ensure all requirements have been accomplished?	Yes
Are shipping personnel inspecting all materials for physical damage and appropriate packaging?	Yes
Are verification checks being performed to ensure part numbers, serial numbers, quantities and conditions match shipping documents?	Yes
Do you ensure that all documented information required to accompany the products and services are present at delivery?	Yes
Do you retain documented information on evidence of conformity and traceability to person auth release?	Yes

Control of Nonconforming Output - Control of Nonconformances Procedure	
Are there segregated hold areas which are used to separate in-process, outgoing, and scrap materials?	Yes
Is rejected material identified and stored in a secured area to prevent unserviceable parts from being intermixed with conforming/serviceable parts?	Yes
Is scrap physically mutilated to the extent that will prevent being returned to service?	Yes
Do you report nonconforming product to the customer or other interested parties?	Yes
Is counterfeit, or suspect counterfeit parts controlled to prevent reentry into the supply chain.	Yes
Does the system provide for the prompt identification and correction of non-conformances?	Yes
PERFORMANCE EVALUATION – Internal Audit Procedure	
Do you monitor customer satisfaction including complaints, conformity, on time delivery, corrective action requests, & customer feedback? Is action taken against deficiencies?	Yes
Are internal audits performed at minimum annually? Are reports maintained?	Yes
Are Management Reviews conducted periodically, at minimum annually?	Yes
IMPROVEMENT Corrective Action Procedure	
Do you have process in place for customer complaints to ensure appropriate action is taken?	Yes
Do you have a corrective action program in place which includes: reacting, evaluating, implementing action, review effectiveness, update risks, make appropriate changes to the QMS, & flow down a CAR to the supplier when they are responsible?	Yes
