

DIRECT Components

CAPABILITIES

EQUIPMENT LIST:

- Creative Electron Truview Prime X-Ray
- Nisene Jet Etch II Decapsulation Machine
- Amscope Microscope
- Amscope Metallurgical Microscope
- BK Precision LCR-ESR Meter
- Leap Electronic EPROM Eraser
- Rigol Digital Multimeter
- Rigol Digital Oscilloscope
- Rigol Function-Arbitrary Waveform Generator
- Rigol Programmable DC Power Supply
- Innov-X X-Ray Fluorescence
- Hitachi XMet 8000
- Xeltek SuperPro 6100
- Fancort CI-1 Compact Coplanarity Mirror
- ABI Sentry Counterfeit IC Detector
- Caliper
- Solder Pot
- Tektronix, Inc. 576 Curve Tracer
- Lindberg/Blue Oven

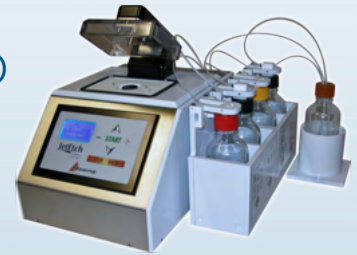

Direct Components offers a diverse range of value added services all under one roof. Our goal is to help you, our partners, complete your project according to specifications with quality parts; reducing lead times and overall landed costs.

VALUE ADDED SERVICES:

DESTRUCTIVE TESTING

- Solderability (Dip & Look)
- Decapsulation
- Heated Chemical Test

NON-DESTRUCTIVE TESTING

- Resistance to Solvents
- Visual Inspection
- X-Ray Analysis
- XRF
- Electrical Testing
 - Pin Correlation
 - DC Parametric Testing
 - Passive
 - Memory Testing/Programming

LOGISTICS SERVICES

- Baking
- Vacuum Sealing
- UV Erasing
- ESD/MSL Packaging
